Summary of Discussion and Commitments/Agreements

1. Approval of Past UMM Minutes

The August 25, 1994 and September 23, 1994 minutes were not reviewed since this meeting was a video teleconference.

2. Status Action Items

- 8-25-94:1 Ecology is to provide NOD comments on Rev.2 of the Closure Plan by October 7, 1994. Ecology (S. E. McKinney)

Ecology (S. E. McKinney) reported that the review of the closure plan had not been completed. WHC (J. G. Adler) stated that a letter from Ecology would be required that closes out the old NODs and transmits any new ones. A new due date of October 31, 1994 was set. This action remains open.

- 9-23-94:1 Determine the status of the discussion with Ecology-Kennewick on 303-K and 300 WATS. WHC (J. G. Adler)

WHC (J. G. Adler) reported that WHC has held preliminary discussion with Ecology-Kennewick on placing 303-K on hold and working on 300 WATS. During the meeting, WHC stated that Ecology-Kennewick had provided a favorable response to the proposal. This action is now closed.

3. Status Closure Activities

- Status of Ecology's Review of Closure Plan Revision 2

See action Status of Action Item 8-25-94:1.

4. New Business

- Future Status of the 303-K Building

Ecology (S. E. McKinney) asked about the intended status of the 303-K Building after closure. WHC (J. G. Adler/I. L. Metcalf) replied that ultimately, the 303-K building will be demolished. However, Fuel Supply Shutdown is still evaluating it near-term needs for a less-

than-90 day storage area. After clean closure, the 303-K is a potential location for that less-than-90 day storage area. A final determination has not been made.

Also, WHC and Ecology discussed what happens to the Part A Permit Application. If any waste (e.g. contaminated soil) remains in place until CERCLA remediation of the 300 Area, then the Part A remains in place. If a full clean closure is obtained, then the Part A could be withdrawn. However, the mechanism of doing this has not been developed between Ecology, RL, and WHC and the final disposition of the Part A after closure will remain a concern.

5. Set Next Meeting Date

The next Unit Manager's Meeting has be tentatively scheduled for November 22, 1994.
